

GREEN ADVANTAGE TRAINING WORKSHOP – April 23, 2009

Help support green building practices in Michigan - Provide a training scholarship

The Green Advantage Training Program prepares participants to become nationally certified in the latest green building practices, technologies and techniques. Students will learn the core concepts and construction principles behind sustainable buildings. They will also become familiar with the LEED rating system as it applies to construction. Students are thoroughly prepared for the Green Advantage Certified Exam scheduled on April 29, 2009.

Please consider sponsoring the Green Advantage Training Workshop with a generous contribution to our scholarship program for this training session. The construction industry is moving steadily towards green building and in Michigan there is a need to create opportunities for jobs with this expertise. With today's economic climate, many people are excluded from participating in this training that would help them gain a competitive edge in the industry. We hope you will provide a partial or full scholarship; we will provide recognition to our sponsors and their scholarship recipient(s). Thank you for your consideration of this opportunity.

Sponsorship Levels:

Sponsor: \$100

This is a partial scholarship of the \$450 fee for one participant. Your benefits include:

- Listed on marketing materials
